VISION

To deliver high quality health care with affordable cost.

MISSION

To be a patient friendly hospital.

Specialist Health systems Pvt Ltd is an integrated Healthcare provider with a network of 3 Medical centers, Oral healthcare, Pharmacy retail, and other health related services in Bangalore.

February 2011: Specialist Hospital is one-of-its kind initiative under Specialist Health systems, Started by two young orthopaedic surgeons in a small fracture & joint outpatient clinic with basic diagnostic facilities.

August 2013: Specialist Health systems Pvt Ltd, As days passed, we realized the need for expansion, so expansion was made to 50 bedded Super specialty hospital featuring Operation Theatre, ICU, laboratory, & pharmacy

December 2014: Located in a Eastern side of Bangalore in a serene atmosphere, the need was even more hence expansion was made to the current 150 bedded Super specialty hospital with state of art Cath-lab, 4 operation theatres, 20 bedded Intensive Care Unit, and the dialysis unit.

January 2019: Started a dedicated 50 bedded Cardiac Hospital. [Specialist The Heart Hospital] is the first Cardiac Hospital in East Bangalore.

Specialist Hospital, offers a wide range of services across specialties which include cardiology, cardiac surgery, nephrology, urology, neurology, neurosurgery, endocrinology, orthopedics, internal medicine, obstetrics, gynecology, pediatrics, neonatology and gastroenterology to name a few.

The surgical specialties are supported by state-of-the-art fully computerized pathology and radiology department, diagnostic facilities such as 64 slice CT scan, Silent (Quite suite) MRI scan, Cath Lab, Endoscopy, Ultrasound, ECG, Echocardiogram, X-ray, Mammography & 24/7 Emergency Wing, ensuring speedy diagnosis, helping your loved one's speedy recovery

The OPD at Specialist Hospital, is designed to accommodate 1000 patients on a daily basis at full capacity, intended to ensure timely diagnosis and to provide relevant surgical intervention when required.

EXCELLENCE IN NURSING CARE

Nursing Care

We bring skilled and personalized nursing care in the comfort of your home. Besides being convenient, the compassionate nursing care at home also helps a patient recover sooner, as it has been found that people tend to recover sooner from their illness or ailments when surrounded by their loved ones.

Our nurses monitor the diet of the patient; take readings of blood pressure, temperature, heart rate and breathing. They ensure the prescription and other medication are followed strictly as per the treating doctors advise. And most importantly regularly co ordinate with the doctor to provide a proper course of health care.

AS PER YOUR REQUIREMENT, you can hire the services of a trained nurse for 12 hours or 24 hours.

Our services includes :

- Post surgical care
- Monitoring vital signs
- Urinary catheterization
- Wound care
- Suture removal
- Injections (IM, IV, SC)
- IV-Infusion
- Tracheostomy care
- Suctioning
- Bed sore care

EXCELLENCE IN PHYSIOTHERAPY

Physiotherapy

Physiotherapy is referred to as physical therapy, is an allied health profession that makes use of bio – mechanics or kinesiology, manual therapy, exercise therapy and electrotherapy, to help patients restore, maintain and increase their physical mobility, strength and function.

Our physiotherapist help people regain mobility, as they have a better understanding of how the body works and are trained in clinical skills to assess, diagnose and treat disabilities. Our physiotherapist can help patients recover from injuries and disabilities ranging from back pain, neck pain, knees pain to ligament issues at Home.

Our services includes :

- Orthopedic injuries
- Sports injuries
- Back pain
- Post surgical rehabilitation
- Arthritis, neck pain
- Spinal care
- Geriatric care
- Postural analysis
- Pre and Post natal physiotherapy

EXCELLENCE IN NURSING ATTENDANT

Nursing Attendant

Trained attendants take care of the daily activities of a person in need. They help with personal grooming, movement, feeding, and are also trained to monitor general health by regularly measuring essential vitals like heart rate, blood pressure, etc.

If a loved one needs help moving around or to be monitored regularly, a trained attendant is exactly who you need at home.

AS PER YOUR REQUIREMENT, you can hire the services of a trained attendant for 12 hours or 24 hours.

Our services includes :

- Daily living assistance
- Mobility assistance
- Oral medication
- Monitoring vitals
